## **Opinions of German drivers towards BEVs**

The purchase price of an electric car is too expensive compared to a comparable gasoline/diesel car.

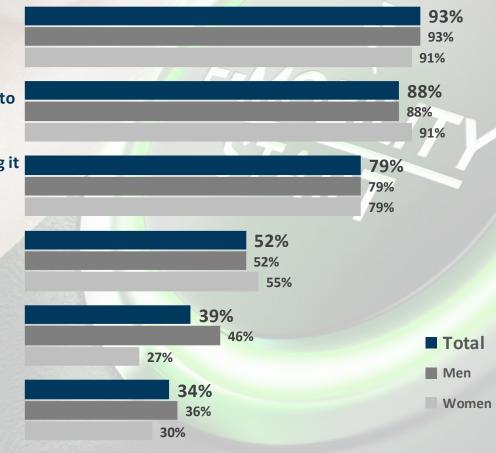

The charging time required is a real disadvantage compared to the refueling time required.

Scrapping an eight-year-old gasoline/diesel car and replacing it with a new electric car is not beneficial for the environment overall.

An BEV is more environmentally friendly than a gasoline/diesel car.

A BEV is more sporty to drive than a gasoline/diesel car

The BEV will definitely replace the gasoline/diesel car

Top 2 - fully/rather agree

If you compare the properties of Bevs and gasoline/diesel vehicles, to what extent do you agree with the following statements?

Please rate on a 4-point scale with 1 = I fully agree, 2 = I rather agree, 3 = I rather disagree, 4 = I disagree
